Subject: Keystone - Comments on Report of Leachate Monitoring and Recommended Changes to the ELGE Remedy
Attachments: EPA Comments-LMP Report 20201202 (Attachment).pdf

Glen,

Attached are comments on the 2018 LMP Report. As I mentioned during the FYR inspection, the purpose of this letter is to solicit a response from WM on the comments from EPA and the OGD. Please note I've requested a 30-day TAT on responding to the comments.

I anticipate that EPA will be sending separate requests to address the specific Issues and Recommendations/Follow-Up Actions within the FYR sometime soon.

Feel free to call to discuss. Thank you - Chris
